

EXPOSE OF GAMBLING VICE IN JANESVILLE

Interesting Sermon Preached by Rev. Mr. Kempton

SPOKE OF GAMBLING RESORTS IN THIS CITY.

Severe Stricture on Hotels, Cigar Stores, Barber Shops and Other Public Places Alleged to be Running Card Games Involving the Exchange of Money—Illustrations of Local Examples Emphasizing the Evils of the Gambling Mania Christian Citizens Urged to Arise and Stamp Out the Dreadful Scourge.

There is little doubt but what the ears of certain men in this city burned scarlet last evening. At the Baptist church Rev. Arthur C. Kempton, the pastor, preached a stirring sermon, taking for his subject, "Gamblers and Gambling."

Rev. Kempton said that he based all his information on gathered facts and that there was no guess work connected with it. He said that he knew whereof he spoke and that if necessary he had the names of all interested parties. By this he said he referred to the men who operated these gambling places and also many of the men who patronized them.

Brands the Cigar Stores
Certain local cigar stores he branded as the worst of these gambling places saying that in their rear was carried on gambling. There were also certain hotels and barber shops that permitted gambling.

Certain special and particular gambling places with secret doors and windows, he says, thrive in Janesville every day in the week.

Gambling Always Was a Vice
Rev. Kempton further stated that from the dawn of history gambling has been a vice among men. America has not been behind the other nations of the earth. Gambling exists in all parts of the world. Ladies sometimes gamble in their parlors. Boys gamble in out-of-the-way places. There was gambling at horse races and at football games. There was gambling everywhere.

"We are here to think of events that are transpiring in our own city," he said. "Look at the headquarters of gambling. If you would see the pictures of these places you would see saloons and cigar stores and other places filled with a class of men and boys all eager to gamble."

A letter was then read from a local resident whose name was not revealed. This man told of the evil as it existed in Janesville today.

"If we would go to the gambling rooms of our city," said Mr. Kempton, "we would see well known business men, mechanics and many of our young men."

"There is one man that has been in the habit of taking his ten-year old son with him when he visits a certain gambling place. This boy remains by his father's side way into the small hours of the morning while his father handles the cards and chips."

The Rev. Kempton then told of a young man who came to Janesville from Baraboo and that after disposing of two carloads of potatoes he was robbed out of his money at a certain Main street resort.

Describes a Gambling Joint
"Do you know," he asked, "what the law against gambling is? It is considered gambling to play for the cigars or the drinks."

Mr. Kempton here gave the picture of a room where five men gamble from 7 p. m. until after daylight the next morning and hundreds of dollars leave the pockets of some of these men.

The Whisky Bottle is Handy
The whisky bottle, he said, was also handy at these gambling tables and that every effort to muddle the brain of the players was made. But the shrewd gambler never touched liquor but was only too willing to have his companions indulge to their heart's content.

Another young man, the preacher had been told, the son of a christian mother, entered gambling dens so drunk that he could not even hold his cards and he was fleeced of the \$15 that he had when he entered. "And there are members of this congregation right here this evening who know this to be true."

A saloon keeper is alleged to have said that his poker table alone brought him in a weekly revenue of \$25 to \$50.

She has a sweet, clear soprano voice, and her solo of last evening was rendered in a faultless manner. Mrs. C. L. Clark presided at the pipe organ.

At the close of the services, five new members were admitted into the church, the baptism ceremony being carried out.

FRANCE AND CHINA AGREE

Treaty Fixing the Disputed Boundary Has Been Signed

Yokohama, via London, Nov. 20 The final act embodying the delimitation of the frontier of the Kwang Chauwan territory was signed by representatives of France and China Wednesday. The French minister at Tokio has received a telegram from the governor of Indo-China admitting that there is some trouble with the pirates on Kwang Chau Bay, but adding that the incident has been exaggerated and that perfect accord exists between Admiral Courrejolle and the Imperial Chinese Commissioner.

MILWAUKEE MAY LAND THE PRIZE

SHOW TO GET DEMOCRATIC NATIONAL CONVENTION.

Wisconsin Bourbons in Chicago a Session of Democratic Executive Committee—Rose Denies Being a Candidate—Chairman Jones Says it Will Be Bryan Again.

Chicago, Nov. 20—Ex-Governor Geo. W. Peck of Wisconsin, and a large party from Milwaukee, including Mayor David Rose, J. M. Stover, George W. Bruce, William Walker and J. G. Donnelly, came to Chicago yesterday to further the agitation for Milwaukee as the site of the next democratic national convention. The delegates are making their headquarters at the Sherman house, where democratic leaders are gathering for the meetings today of the national and state executive committees.

Ex-Governor Peck says he is confident that Milwaukee will get the convention. He says the citizens already have guaranteed \$50,000 and that this amount will exceed the expenses of the convention. "I do not apprehend," he said, "that the national committee will give the convention to the highest bidder regardless of other considerations. If it should, we would be much surprised."

The Milwaukee delegates held a long conference with D. J. Campau, chairman of the campaign and executive committee this morning. After the meeting Mayor Rose said:

Rose is Not a Candidate

"Milwaukee wants the convention and we are going after it. We have received much encouragement from the committee, but I am not at liberty to tell what individual members of the committee say about it."

When questioned about the statements made by the press that Mayor Rose is a possibility as the democratic nominee for the vice presidency, he said:

"That is an impossibility. There is absolutely no possibility for me to receive the nomination, and I am positively not seeking it. The vice presidential nomination is going to the east."

D. J. Campau spoke encouragingly of Milwaukee's chances for the convention. "Milwaukee has many friends in the national committee," he said. "If Chicago does not come prominently to the front as a claimant of the convention, I think Milwaukee's chances are good."

Jones Says it Will Be Bryan

In regard to the nominees and issues Chairman Jones said:

"Mr. Bryan will be the Democratic candidate without question. President McKinley's re-nomination seems equally unquestionable. In the matter of platform, the Democrats will be, I think, right where they have been, and the Republicans will frame a platform calculated as closely as possible to win. I do not want to be misunderstood in what I say about the Democratic platform. The declarations of 1896 will in my judgment be reaffirmed, but I cannot presume to say in what form it will be expressed. Opposition to imperialism and declaration for control of the trusts will also be in the platform."

Since 11 o'clock this morning the committee has been in session behind closed doors.

REPORTS OF MANY WRECKS

Ten Ships in Distress in the Straits of Magellan.

Norfolk, Va., Nov. 26—According to reports brought in today ten ships, evidently British, are ashore in the straits of Magellan. The steamship Kurdistan, Captain Littlehale, reported six and the Headless, Captain Milton, reported four. Each vessel came through the straits bound here for coal, and had an extremely rough voyage.

Judging from a former experience of the Kurdistan, the crews of the wrecked vessel may have been devoured by cannibals.

SPAIN'S PRISONERS SET FREE

Agustaldo Has Released Eight Hundred Captives

Madrid, via London, Nov. 20—A telegram received here from the Spanish consul at Manila says that Agustaldo has liberated 800 Spanish prisoners. The Marquis Silva, premier, said today that by Wednesday there would probably be reached a satisfactory solution of the trouble at Barcelona.

JAMESTOWN IS CUT OFF

Important Town South of Aliwal is Taken by the Boers.

DOUGLAS ALSO TAKEN

Boers Attack Estcourt From All Sides and Fierce Fighting Is On.

SOLDIERS ORDERED FROM INDIA TO SOUTH AFRICA.

United States Consul Macrum Has Made No Complaint to Washington of Discourteous Treatment to Him By the Transvaal Government—Simply Objected to the Use of Cipher in His Official Telegrams—Boers Strengthening Siege Guns at Ladysmith—Armored Trains From Cape Town For Relief of Kimberley.

Cape Town, Nov. 20—[Special Cablegram]—The telegraph to Jamestown, Cape Colony has been cut off. It is supposed that the town has been captured by the Boers. Jamestown is south of Aliwal. When the Boers entered the latter place they were cheered by the inhabitants. A skirmish is reported to have taken place at Kuruman, Rhodesia.

Douglas Also Captured

Cape Town, Nov. 20—[Special Telegram]—A Deaar dispatch says that Douglas, northwest of Hopetown, has been occupied by the Boers. This is believed to indicate that a flank movement in the attack on Kimberley is being made by the relieving force.

More Troops For Africa

Bombay, Nov. 20—[Special Cablegram]—The British Indian government has received orders to prepare the second army contingent for South Africa.

Battle at Estcourt

Cape Town, Nov. 20—[Special Cablegram]—Estcourt is menaced by bodies of the enemy at several points. Due west, probably at Ennersdale, there is a force of Orange Free State burghers. On the northeast of Kimberley there is a contingent under Commandant Grobler, while there are other Boers on the Weenan, Greytown.

A Heavy Battle is Reported to be in Progress There Now.

Macrum Has Made No Complaint

Washington, Nov. 20—[Special Telegram]—Consul Macrum has made no complaints to the state department that the Boers have been discourteous to him and the United States has not felt warranted, up to this time, in calling attention to President Kruger's unusual attitude maintained towards the United States representative there, but it is admitted that the restriction placed on Macrum's cable dispatches, denying him the use of the cipher is not customary. It is not considered advisable to make a protest at present.

Strengthening Their Siege Guns.

Cape Town, Nov. 20—Advices have been received here to the effect that the Boers are strengthening their artillery at Ladysmith. They have sent a force to defend the southern frontier of the Free State against an invasion by the British from the direction of Kimberley.

For Relief of Kimberley.

Orange River Station, Nov. 20—Three armored trains under Major Rhodes made attempts last night to communicate with Kimberley with flashlights, but failed owing to the brightness of the moon, which also foiled dispatch riders from Kimberley, compelling them to keep under cover.

FORECAST OF WEATHER

Chicago, Nov. 20—[Special Telegram]—The forecast for Wisconsin is as follows:

Increasing cloudiness tonight, rain Tuesday.

KAISER IS IN ENGLAND

Landed With the Empress and Two Sons and Made Haste to Visit the Queen.

Portsmouth, Nov. 20—[Special Cablegram]—The Prussian Imperial yacht Hohenzollern with the Kaiser, Empress and two sons arrived this morning and were greeted by twenty British war ships. At the dock he was met by the Duke of Connaught, representing the Queen. There was no popular demonstration. The party was hastened to Windsor Castle to visit the Queen.

DEBS WILL NOT TAKE CHARGE

He Hasn't Time to Reorganize the American Railway Union

Terre Haute, Ind., Nov. 20—Eugene Debs said before leaving for his eastern lecture tour that he would not have time to take charge of the reorganization of the American Railway union. He said: "When I arrived home from the Pacific coast this week I found a bushel of letters from railroad men asking me to take up the work. There is no doubt that the reorganization will be effected. It will reorganize itself. The railroad men are beginning to feel that they want to be a part of the general movement—to affiliate with their brothers of other occupations. The present brotherhoods hold aloof from one another and from other craft. This is just the policy the railroad managers desire the brotherhoods to pursue. The railroad managers know that just so long as their employees are organized in isolated bodies they have nothing to fear."

CONGRESS TO ADOPT THE REED RULES

HOUSE TO CONTINUE "CZAR'S" PLAN OF DOING WORK.

President McKinley and Colonel Henderson Said to be in Accord as to Wisdom of Proceeding Under the Old Method—The Solid Gold Basis.

Washington, D. C., Nov. 20—What are known as the Reed rules will be adopted by the next house, at least temporarily, and probably permanently. There has been much opposition to the operation of these rules, and their will be many schemes advanced for their full amendment, but the recognized leaders of the house consider the rules as they now stand practically indispensable to the protection of the Treasury and the prompt dispatch of business.

The new speaker has had a long conference on the subject with the president, and this fact has peculiar significance. President McKinley when a congressman was one of the committee which drafted and executed the Reed rules when they were first applied, and it is believed he still considers them admirable for executing the will of the majority. It is supposed he has advised against any change.

When the house meets two weeks from today the old rules will be adopted temporarily. In the last congress this action was taken, and this temporary adoption of the rules was never changed. This time it is likely the temporary adherence to the Reed rules will be for the specified time of thirty days.

After the thirty days the old rules will be adopted almost without amendment, as the leaders of the house have come to the conclusion the majority is altogether too narrow to make experiments.

NEED OF A MERCHANT MARINE

Statistics Bearing Upon the American Commerce Issued at Washington

Washington, D. C., Nov. 20—The annual report of Mr. Chamberlain, the Commissioner of Navigation, shows that American shipping industries during last fiscal year enjoyed more satisfactory conditions than in any former year in the bureau's history.

The total documented tonnage on June 30, 1899, comprised 22,728 vessels of 4,864,238 gross tons, which is the largest since 1855. The tonnage operating under United States coasting laws 21,397 vessels of 4,015,992 gross tons, is the largest in history and greater than the coasting tonnage of any other nation. The United States steam tonnage, 2,476,011 tons, for the first time exceeds the tonnage of all other craft. In the rest of the world steam tonnage eleven years ago exceeded sail tonnage. The United States tonnage registered for foreign trade remains small, and last year American vessels carried a fraction less than 9 per cent. of our exports and imports, the smallest percentage in history.

The world's seagoing steam tonnage in the last quarter of a century has increased from 4,328,193 tons to 18,897,132 tons.

PLACED ON A SOLID GOLD BASIS

Currency Question Will be Treated in the President's Message.

Washington, D. C., Nov. 20—Senator Stephen B. Elkins says that the coming message of President McKinley will probably have for its most prominent feature, after the war situation, the recommendation for a revision of the currency along the lines favored by gold standard republicans. Senator Elkins saw President McKinley one day last week and this gives the statement significance.

"I am satisfied from what I have learned," said Senator Elkins, "that the President will dwell strongly on the currency question. There is a feeling among leading republicans that the currency question should be taken up and disposed of at the earliest opportunity. That it will finally be placed on a straightforward gold basis there is not the slightest doubt in my mind, and I have taken pains to inform myself of the trend of affairs."

Cables Afraid of Electricity.

There has been great difficulty in London in finding drivers for electric vehicles, and one company has dismissed its employees and closed up its plant on this account.

VERY TAKES ZAMBOANGA

Captain of U. S. Gunboat Castine Was Assisted by Friendly Natives.

ASK HELP FROM JOLO

The Little Detachment Threatened by an Overwhelming Force of Insurgents.

M'ARTHUR'S ADVANCE HAS ARRIVED AT DAGUAPAN.

Capt. Nazro of the Gunboat Manila is in Command at Zamboanga and will Hold the Town and Fort Until Assistance Arrives.—A Considerable Force of Rebels Gathering West of the Railway in Zambela and it is Believed That They are Meditating a Further Demonstration.

Washington, Nov. 20—[Special Telegram]—Gen. Otis cables the war department of a serious outbreak against the Americans in Zamboanga, capital of Mindanao, for which the Americans are but poorly prepared. He says in part: "One of the contending insurgent factions at Zamboanga has secured the city turning the same over to Capt. Very, commander of the gunboat Castine, then in the harbor. The other insurgent faction made a demonstration and Capt. Very called on the garrison at Jolo for help. One company was sent, and two others will follow as soon as reinforcements can be forwarded, which will be several days."

The second message says: "Gen. MacArthur's advance arrived at Dagupan and ascertained that Gen. Wheaton's troops had been there before and withdrawn yesterday."

"It is believed that many insurgent detachments are west of the railroad in the province of Zambela and are meditating on concentrating and making a demonstration. They will be looked after. Nothing has yet been received from either Lawton or Wheaton."

Await Support From Jolo

Admiral Watson's dispatch on the Zamboanga affair follows:

"Commander Very of the Castine and friendly natives and Moors combined captured Zamboanga, no casualties. The landing parties from the Castine and Manila hold the town and the fort. Capt. Nazro the commander of the gunboat Manila is in charge. The arrival of troops from Jolo are awaited. There is a considerable force of insurgents at Mercedes, four miles away."

New Government Party Formed.

Manila, Nov. 20—[Special Cablegram]—The trouble in Zamboanga recalls the fact that the Americans had not intended to take possession there until affairs in the Luzon had become more settled. The outbreak, however, forces the matter, and a new government has been partly formed, which calls for American troops. The cities of Cottabao, Davao and Surigao in the northeastern part of Mindanao are of importance, and garrisons were stationed there.

Six Americans Were Wounded.

Washington, Nov. 20—[Special Telegram]—Gen. Otis confirms reports of capture by three companies of the Twenty-fifth infantry (colored) by night of two hundred insurgents without loss of life at O'Donnell. Much ammunition, clothing, transportation, official reports and two hundred rifles were seized.

The insurgents south of Manila made an advance yesterday but were driven back. Six Americans were wounded.

WILL STAMP OUT SMALLPOX

Storm, Lake, Ia., Imports Doctors and Nurses From Chicago

Storm, Lake, Ia., Nov. 20—The local board of health here has resorted to rigid and effective measures to prevent the further spread of smallpox in this city. A large number of special police have been appointed. Vaccination has been made compulsory. The board has decided to erect a quarantine hospital isolated from the city.

CIVIL WAR IN NEW GUINEA

Natives Revolt and Destroy Eleven Villages and Kill Many People

Sidney, N. S. W. (via London), Nov. 20—A disastrous civil war has broken out in New Guinea, beginning with a successful revolt against the head chief, Inamakala. Eleven villages have been obliterated with heavy slaughter of the inhabitants. The missionaries, whose lives were in danger, escaped by the exercise of great tact.

SOME PHASES OF THE SUNDAY QUESTION

TOPICAL SERMON BY REV. WILSON AT ALL SOULS CHURCH.

Sunday is the Most Expensive Day in the Seven—Boon to the Sporting World—Injustice to Legitimate Trade—Sunday Cash Makes Monday Credit.

Rev. A. G. Wilson's sermon at All Souls church yesterday morning treated certain phases of the Sunday question. He said in part:

"I am not sure that Sunday is more of an inspiration to virtue than an influence to evil. The day certainly carries great possibilities in both directions. I have watched the tides in city and country on this day. I have knowledge of men when released from business cares. I know the tendencies of human nature when it has nothing to do but to kill time. I know the luxury of time is a dangerous wealth to handle. I know the Sunday allurements that appeal to the evil side of human nature, and I say that Sunday carries greater hazards of morals and money than any other day. It is the most expensive day in the seven. Men pay more for frolic than for food. It is a luxurious day, and needs to be watched as you watch rivers when out of their channels. There is no day when the great mass of men carry so much money as on Sunday. The money vaults of great corporations paying on Saturday night, and the army of employees march into Sunday with pockets full of coin. All those lines of trade that deal in luxuries, appealing to physical appetite, reap their richest rewards on the first day of the week. Some of the most gigantic enterprises contemplate the financial harvest of Sunday. The sporting world would go bankrupt in six months if the profits of Sunday were left out. This is a natural and reasonable result of the conditions. It is a safe proposition to make that Sunday dissipation is responsible for much of the poverty existing among those who give free license to natural tendencies, and that there are thousands of men who would get reasonably rich if they would save their Sunday bill."

"This works an injustice to the essential lines of trade, for it permits certain branches of business to monopolize this first day to their own interests. It is the cash business of Sunday that makes the credit business of Monday. This may not apply here. The conditions of this city in respect to Sunday sport do not afford anybody an opportunity to be anything else than pretty good and economical. So you see, I do not know what proportion of your Sunday virtue is the result of your enforced circumstances. But at no time in the oratorio of life does the music play upon so long a scale, for on this day we do all of our praying and most of our playing."

"Right here comes in the special Sunday mission of our churches—to provide clean and attractive channels through which the Sunday currents will gladly flow. To sound upon the Sunday breeze a sweeter note than vice can give. If the tides of human life can ripple over the dead rocks of Christianity fifty-two times in twelve months, the flow of the stream will be more free and its waters more christal as the Sabbath come and go."

"Idleness and Industry"
Rev. Dr. Hall preached an interesting sermon on "Idleness and Industry" at the Court Street M. E. church yesterday morning. The theme was ably handled and the speakers forceful delivery and apt illustration impressed the audience very much.

"The buoyant effect of 'Orangeine' relieves exhaustion and checks disease."

OKLAHOMA ASKS STATEHOOD

Guthrie Convention Takes Action Looking to Admission of Territory.

Guthrie, O. T., Nov. 20.—The statehood convention which closed here Saturday, appointed a committee to draw up a memorial to Congress, asking that Oklahoma be granted statehood with her present boundaries. Delegate Dennis T. Flynn left for Washington today with bills in behalf of statehood and free homes for Oklahoma, on which, it is said, he will make the fight of his life. Flynn's statehood bill is said to be similar to the one he introduced in the last session.

G. SPENCER WITH MODJESKA

Rising Young Actor is a Cousin of E. V. Whiton of This City

George Spencer, who plays a leading part with Modjeska at the Myers Grand tomorrow evening, is a cousin of E. V. Whiton of this city. Mr. Spencer was

in Janesville with another company two years ago, playing in repertory. He made rapid progress, and shortly after finishing the Janesville engagement, became a member of Modjeska's company, a position that he has held ever since. Eastern papers have given Mr. Spencer the warmest of praise and predict great things for him. He is the son of E. C. Spencer of the Spencerian Business College, Milwaukee.

SENDING OUT GRIGGS' SPEECH

Wisconsin Republican State Central Committee is Busy

Milwaukee, Wis., Nov. 20.—Secretary Stickney of the republican state central committee, has begun sending to the county chairmen throughout the state 150,000 copies of the speech delivered at the McKinley banquet in this city October 16, by Attorney General John W. Griggs, in which this cabinet officer explained the present duties and possibilities of the nation. Leading Wisconsin republicans think that this presentation of the Philippine question is the most

able of any yet given, and that possibly, with the exception of the speech of Mr. Lindsey in Kentucky, will have the greatest demand throughout the country the next few months of any presentation of the situation. The extra weight with the Kentuckian's argument is due to the fact that it is from a democrat.

No one would ever be bothered with constipation if everyone knew how naturally and quickly Burdock Blood Bitters regulates the stomach and bowels. Cures croup, sore throat, pulmonary troubles. Monarch over pain of every sort. Dr. Thomas' Electric Oil. "A dose in time saves lives." Dr. Wood's Norway Pine Syrup, nature's remedy for coughs, colds, pulmonary disease of every sort. Scald head is an eczema of the scalp, very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

Sales of Seed Leaf Tobacco
Sales of Seed Leaf tobacco reported by J. S. Gans' Son, broker, No. 128 Water street, New York, for the week ending Nov. 20, 1899.

400 cases, crop of 1898, Wisconsin Havana, at 5 1/2 to 12 1/2 cents.
250 cases, crop of 1897, Wisconsin Havana, at 9 to 10 1/2 cents.
350 cases, crop of 1898, Zimmers, at 11 1/2 to 15 1/2 cents.
200 cases, crop of 1898, State Havana, at 11 to 17 cents.
200 cases crop of 1898, Gebhardt, at 12 to 12 1/2 cents.
250 cases, crop of 1898, Pennsylvania Seed Leaf, at 10 to 11 1/2 cents.
75 cases, crop of 1898, New England Seed Leaf, at 20 to 25 cents.
Total, 5,825 cases.

Used by British Soldiers in Africa.
Capt. C. G. Dennison is well known all over Africa as commander of the forces that captured the famous rebel Galishe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial." For sale by Smith's pharmacy, next to postoffice, kodak agents.

Puerto Rico.
Three tours of the beautiful island of Puerto Rico are scheduled to leave Chicago January 11, February 15, and March 8. Special Pullman sleeping and dining cars will convey the party to New York, thence on board the splendid new steamships Ponce and San Juan, through and around the island by rail, automobile, carriage and boat. Tickets include all expenses everywhere. These select limited parties will be under the special escort of Mr. Walter Boyd Townsend under the management of The American Tourist association, Reau Campbell General Manager, 1423 Marquette Building, Chicago. Itineraries, maps and tickets can be had on application to the agents of the Chicago, Milwaukee & St. Paul Ry.

Improved Train Service between Rock Betford and Watertown and Waukesha and Milwaukee
Via the North-Western Line. By the addition of new trains on the above line, passengers can now leave Janesville at 8:05 a. m. and 12:45 p. m. arriving at Milwaukee at 10:45 a. m. and 3:40 p. m. and Watertown 9:30 a. m. and 2:38 p. m. and at Waukesha 10:05 a. m. and 3:11 p. m. respectively, and convenient service returning. Commodious day coaches. For particulars inquire of agents Chicago & North-Western Ry.

It adds spice to dreary life, encourages the human heart, lifts one out of despair, breathes new life and confidence. That's what Rocky Mountain Tea does. Smith's Pharmacy, Kodak Agents.

JUBILEE SINGERS AT THE M. E. CHURCH, NOVEMBER 21. TICKETS, 25 CENTS.

which they have probably driven down from the north.

JANESVILLE MARKET PRICES

Quotations on Grain and Produce Are Reported for The Gazette.

The following figures show the range of prices in the local market. Corrected by P. H. Bump.

FLOUR—Retail at 90c @ \$1.05 per sack.

Republican League Call.
Washington, Nov. 20.—A call has been issued for a meeting of the executive committee of the National Republican league for Tuesday, Dec. 12, 1899, at 11 o'clock in the forenoon, at Willard's hotel, in this city.

Already the indications point to considerable rivalry between cities for the national convention of the league. St. Paul, Chicago, Indianapolis, St. Louis, Galveston and possibly Philadelphia will ask for the convention. The commercial clubs of St. Paul and Galveston are taking an active interest in securing the gathering for their city. The next national convention of the league will be the first national political gathering of the presidential year; and it is expected that the keynote of the presidential campaign will be sounded and the policy of the party outlined at that time.

It warms up the heart like sunshine, cheers the soul like old wine, gives hope for the future, blots out the past. That's what Rocky Mountain Tea will do. Smith's Pharmacy, Kodak Agents.

TRY GRAIN-O! TRY GRAIN-O!
Ask your Grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich smell of brown of Mocha or Java, but it is made from pure grains and the most delicate stomachic ingredients it without dross. It is the price of coffee, 25c, and 25c, per package. Sold by all grocers.

WATSON REPAIRS
MILWAUKEE STREET
SAYS THOROUGHFARE IS NOW IN GOOD CONDITION.

Allege That the Trouble Has Been With Certain Plumbers in Not Replacing Earth Properly—Many Places Dug Up—Complaints Being Made These Days.

Contractor J. H. Watson says that the West Milwaukee street pavement is now in good condition. Recent excavations made in the brick pavement by the sinking in of the street foundation work, have all been repaired. This repair work has been carried on in several places between the Milwaukee street bridge and Franklin street.

The trouble was caused by the giving away of earth beneath the brick pavement and in places where pipes had been relaid. It is alleged by the contractors that the trouble was with the plumbers who failed to properly replace the earth when they made excavations for water pipes.

It is also said that this extra expense incurred by this repair work is being partly paid by the plumbers. The crosswalks on Milwaukee street are said to be too flat; they hold water after every storm.

Several of the aldermen say that these walks will never answer the purpose, and will have to be rebuilt. Contractor Watson says they were built as ordered. Mr. Watson also claims to have lost considerable money as the result of paving on Milwaukee street.

FIVE KILLED IN A WRECK.

Work Train Derailed by a Handcar, with Disastrous Results.

Sioux Falls, S. D., Nov. 20.—Word has reached here of a terrible accident on the Omaha railroad near Humboldt, twenty miles from Sioux Falls. According to the meager details, which thus far have been received, some men were on a handcar about a quarter of a mile out of Humboldt when they discovered a work train, in charge of Conductor Higgins, backing down upon them en route to Montrose.

In the work train were several flatcars, upon which were 100 or more workmen, principally Italians. The men on the handcar jumped off, leaving the car on the track. When the work train struck the obstruction the force of the collision threw four of the flatcars from the track, killing five of the workmen, among them Edward Howard, an American, and injuring many more. Five of the injured are expected to die.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand good medicine. For sale by Smith's Pharmacy next to Post office. Kodak agents.

Football Scores Nov. 18
Saturday's great game between Yale and Harvard was a mild surprise, as Harvard was rather expected to win. It appears to have been as fierce a battle as ever was fought on the gridiron. Princeton's score of only six against Washington and Jefferson was the most unexpected result of the day. Wisconsin beat Minnesota as expected. The rest of the games came out about as expected. The scores:

Chicago, 35; Beloit, 0.
Wisconsin, 19; Minnesota, 0.
Northwestern, 11; Indiana, 6.
Michigan, 28; Case, 6.
Iowa, 38; Knox, 0.
Purdue, 10; Notre Dame, 10.
Princeton, 6; Washington and Jefferson, 0.
Columbia, 22; Dartmouth, 0.
West Point, 11; Syracuse, 5.

Chamberlain's Pain Balm Cures Others, Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well. —Adolph L. Millett, Manchester, N. H. For sale by Smith's Pharmacy, next to postoffice, kodak agents.

Wallace, Idaho, Nov. 20.—Troop G, Sixth cavalry, which has been in the Coeur d'Alene district for several months, left for San Francisco Sunday.

HOOD'S PILLS

Rouge, the torrid liver, and cure biliousness, sick headache, jaundice, nausea, indigestion, etc. They are invaluable to prevent a cold or break up a fever. Mild, gentle, certain, they are worthy your confidence. Purely vegetable, they can be taken by children or delicate women. Price, 25c. All medicine dealers or by mail of C. L. Hoob & Co., Lowell, Mass.

RUBBER

Patching and Rubber Heeling is a specialty of my work. All kinds of patching and repairing of Shoes done promptly.

THE BIG STORE 20, 22, 24, 26, 28. S. MAIN ST. JANESVILLE, WIS. WE KEEP THE QUALITY UP

Munsing Plated Underwear...

T'S ON TOP...

We have sold this well known Underwear for several years and the sale of it is constantly increasing.

The "Munsing" is made in such a way that the worsted appears on both surfaces, the lisle being completely covered, hence the word "plated."

This plating process which is peculiar to the Munsing Underwear, produces a fabric having the feeling of wool and the durability of cotton, handsome in appearance, and of so fine a texture that persons with the most sensitive skins can wear it without irritation.

People who cannot wear all-wool underwear find the "Munsing" just the thing. We have Women's Vests and Pants at 50c, 75c, \$1.00, \$1.25, and \$1.50. Union Suits at \$1.00, \$1.50, \$1.75, \$2.50 and \$3.00. Misses' Vests and Pants, 50 cents—Suits, \$1.00.

No other Corsets that we have ever sold have given such satisfaction as the W. C. C. Corsets. We have them to fit any figure—short, medium, long, extra long. W. C. C. corset waists are popular. W. C. C. abdominal corsets, the best. The Dowager for stout figures is the greatest value in corset. Women who are wearing the Dowager are well pleased.

Menasha Flannels...

Honest goods, made in Wisconsin, just the thing for family use. 20 pieces in plain, checks, stripes, fancy—28 in., 30c.

Rutland 40-inch Brown Sheeting...

It is good weight, fine thread; we have 100 pieces of it; price until sold, 6c

Turkey Red 58-in. Table Domask...

Regular 50c cloth. Are showing 15 styles in checks, blocks, flowers and figures. It is extra heavy and only 40c.

Eider Down...

Just 4 pieces to close—pink, white, blue, tan—marked down from 35c, 25-inch, at 25c.

THE BLACK MENACE.

Savage Tribes of South Africa Anxious to Take a Hand in the War.

BY C. J. BOWDEN.

Both England and the Transvaal have been watching with much anxiety the attitude of their black neighbors in South Africa. There is good cause for this anxiety. It is far from being a white man's land today, although the Caucasian's is the dominant race just now.

But this domination rests on a very unstable foundation. Below the Zambesi, which may be said to mark the northern border of South Africa, there are, it is roughly estimated, between 7,000,000 and 8,000,000 black natives. Holding them in a very insecure leash are some 750,000 whites.

In the Transvaal there are three blacks to every white. In Natal the proportion is ten to one, while in other territories and states the disproportion is much greater. It is safe to say that on the average there are 100 blacks to each white in South Africa.

When this little handful of whites begin to quarrel among themselves, the natural impulse of the war-loving blacks is to take a hand. Besides, they have old scores to pay off. If the blacks were united in their sympathies for or against either the Boers or the English, it would be suicide for the state in disfavor to take arms against such great odds. Even England, with all her great armies, could not hold her African possessions with all the blacks arrayed against her.

But some of the black races hate other black-races even more heartily than they hate either the Boers or the English. The Basutos, for instance, are ancient enemies of the Zulus and are only kept from clashing because of the distance which the whites keep between them. While the Basutos have no great love for the English, they

undertaking. However, a peace was patched up which left the Basutos independent, except for a nominal British protectorate.

Many of the Zulus and Swazis are anxious to fight the English, but even these races are divided by tribal feuds.

A KAFFIR WARRIOR.

Both England and the Transvaal have interfered from time to time in these petty wars and have been the means of raising one chief or the other to power. These interferences seemed wise at the time, having been in the interests of peace, but now it is probable that both sides wish they had kept their hands off in the past.

Undoubtedly both the Boers and the British would rather fight out their differences without the aid of the black neighbor, but whether they will be able to do so or not remains to be seen. The whites are certainly settling a bad example, and an impartial critic could not blame them for taking a hand in what they regard as the most noble calling in life—that of taking it.

These black warriors are no longer to be despised. There was a time when they would rush up to solid ranks of infantry, brandishing their spears and flourishing their bull hide shields, only to be mowed down by machine-guns. But a great many of the blacks have learned how to use rifles, and many thousands of them are well armed. It is true that the majority still have no weapons other than assegais, but even with these crude arms they have "crumpled up a British square."

So while the war clouds roll heavily over South Africa "the black menace" adds to the gloom.

AN AMBITIOUS SOLDIER.

General Castro, the New President of Venezuela.

Gen. Cipriano Castro, the active and energetic young soldier who has just engineered a successful revolution and captured the presidency of Venezuela, is only 36 years old, but has had much experience in the turbulent politics of this South American republic.

He was always one of the warmest supporters of the Liberal party and took part in the war of defense during the revolution that was led by Crespo. That general did all he could to influence Castro to his side and even offered him a portfolio, but Castro could not be persuaded to take it. The reverse indeed was the fact, for Castro severely criticised Crespo's administration.

When Andrade's star began to rise, Castro led a movement against him and Crespo. After the failure of the "Mocho" Hernandez revolution the

GENERAL CIPRIANO CASTRO.

man who is now president successively defeated Morales and Larria and became the dominant military power in the country. With his new success came hordes of followers, and Castro, after carrying numerous towns, at last took the capital itself.

The movement led by General Castro originated in a dispute over the division of the republic into states. Until a short time ago Venezuela was divided into nine self governing states. President Andrade, for the purpose of adding strength to his own political supporters, undertook to chop these states up into about 20 divisions. When this took place, General Castro, who was a candidate for the governorship of one of the states against General Morales, a friend of President Andrade, saw his prospects of election dissipate into air and immediately proceeded to organize a revolution.

He conducted the campaign with great skill, showing a high order of courage and fine generalship. He is a well educated young man, a hard worker and has unbounded ambition.

Postmen and Lions.

In the absence of any better means, mail bags in the British central Africa protectorate are for the most part carried on the heads or backs of native postmen, who wear a uniform. Owing to the presence of lions, which are frequently met with, it is necessary that the bearers of her majesty's mails should travel in couples and be armed with rifles. During last year the postmen, whose aggregate rounds averaged 10,000 miles per month, were obliged, in defense of themselves and their charge, to fire some forty rounds of ammunition at wild beasts; and the gratifying fact is stated that in no case was a single letter-carrier injured or a mail-bag delayed in consequence of the lions in the way. The telegraph service in the protectorate seems as satisfactory as the arrangements for the delivery of letters.

Georgia Convict Labor.

There is a boom in Georgia convict labor. Jim Smith, the well-known convict lessee, has sold his good-will to James W. English, Jr., of Atlanta. While the price he received for his convicts is not given out, it is known that he sold out his holdings at a handsome profit. Recently there has been a strong demand for state convicts, and the lessees under the new system are anxious to get all the men that they can, even at advanced prices. The activity in the coal, iron and lumber markets causes a big demand for this class of labor, which it is generally understood is the very best that can be had, due to the fact that a lessee gets six days' full time out of his convicts every week, rain or shine. This makes them valuable and will continue to keep them so.—New York Tribune.

Adulterate It Themselves.

A process has been invented and patented in Brazil for preparing coffee in tabloids by a system of compression. It is argued that not only will there be less expense in exporting coffee in this form, but that the customer will be more certain of thus receiving for his use the pure, unadulterated article.

Constipation Cure.—Warner's White Wine of Tar Syrup, the best cough remedy on earth, cures a cold in one day if taken in time; 25 and 50 cents. People's Drug Co.

Valuable For the House Dressmaker.

Some one has taken the trouble to collect the following items about the various widths of different fabrics. To know these is a great convenience when endeavoring to estimate the amount of material needed for dress-making operations: There are three distinct widths, known as single (30 inches), double (45 inches) and mantle (54 inches). Silks and velvets are very narrow and fall below the average single width. Many kinds of woolen goods are manufactured in both single and double widths, and some of the heavier grades, used for capes and coats, run still wider. The accompanying table gives the inches of the average widths of the principal classes of goods:

	Single.	Double.	Mantle.
Silk, velvet, poplin.....	18-24		
Velvet.....	27		
Cashmere.....	27-36	45	50-54
Ladies' cloth.....	36		52-56
Tweed.....	30-36		52-50
Grenadine, gauze, canvas, 24-30		42-45	
Calico.....	25-30		
Gingham, sateen.....	30-32		
Muslin.....	30-36		
Linen.....		36-42	
Waist lining.....		34-38	
Skirt lining.....	27-30	36-45	
Coat or cape materials.....			60-62

French Cooking.

The French cook accomplishes miracles with that bugbear of the American housewife, stale bread. She would consider it an actual sin to throw away a single crust and always keeps an abundant supply of bread crumbs for frying bits of meat and the numberless croquettes which are among her specialties. Bread puddings in France are as light as foam, while the flavoring and the sauce (the French excel in sauces) make them something to be remembered by the tourist who has partaken only of the heavy English puddings made from the same basis.—Good Housekeeping.

Fancy Waists in Great Favor.

Fancy waists of all kinds remain as popular as ever. The cut shows two charming models. One is made up in tucked blue satin with a very original

TWO CHARMING BODICES.

arrangement of bandeau or handkerchief silk in colorings of blue and gold, the points thereof held together with gold buckles.

The other bodice is of old rose glaze silk and tulle lace, through which rows of narrow velvet are threaded, which are tied in a loose knot on the left side.

To Cure a Cold in One Day.

Take Warner's White Wine of Tar Syrup, the best cough remedy on earth, 25 and 50 cents. People's Drug Co.

Seeds from the Organization.

Chicago, Nov. 20.—About 2,500 members of the Knights and Ladies of Honor, an insurance organization with headquarters at Indianapolis, have seceded from the organization. Dissatisfaction with the management of the affairs of the order by the supreme lodge is given as the reason for the split. Fourteen lodges are interested in the revolt, and they have set up a rival concern, which is styled the German-American Federation of Illinois. They have elected their grand officials and forwarded to the state insurance department at Springfield papers applying for a charter to conduct business. They expect to have their charter Wednesday and will then commence active work in organizing lodges throughout the state.

Indianapolis, Ind., Nov. 20.—None of the supreme officers of the Knights and Ladies of Honor are in the city. The subordinates claim to know nothing of the secession of the lodges in Chicago.

New Veterans' Association.

Washington, Nov. 20.—The formation of an organization, the membership ultimately to reach 250,000, has begun in this city. It is to be called the Spanish-American War Veterans' association, and every person who was in the army during and since the Spanish war is eligible to membership. Gen. J. Warren Kiefer, a volunteer major-general during the war, is the head of the organization. The purpose of the association is, as frankly stated, to secure legislation for all who were in the army. Legislation will be proposed advantageous to every branch of the former service.

NOTHING IS BETTER

Impossible to Manufacture a Better Remedy.

Wisconsin People Make Good Witnesses of the Success it Has Achieved.

There can be nothing better for backache, nervousness, sleeplessness and all ailments arising from kidney disorders than Morrow's Kid-Ne-Oids. It is impossible to manufacture a better remedy. Kid-Ne-Oids contain the very best ingredients that are good for ailments arising from the kidneys. The vast number of people in this city who have testified to the merits of Kid-Ne-Oids is sufficient proof that none of our claims are false.

Mrs. T. S. Johnson, 331 Harrison street, Beloit, Wisc., says: "I have been afflicted with kidney backache and other symptoms of disordered kidneys for some time past. During the continuance of my troubles I have experimented with kidney pills and other kidney remedies but did not get any relief until I used Morrow's Kid-Ne-Oids. In a very short time I was greatly relieved. I continued to take Kid-Ne-Oids and I am being relieved of all my former troubles very rapidly. I think Kid-Ne-Oids a splendid remedy for kidney troubles."

Morrow's Kid-Ne-Oids are not pills but yellow tablets, and sell at fifty cents a box by all druggists and by The People's Drug Co.

Mailed on receipt of price. Manufactured by John Morrow & Co., chemists, Springfield, Ohio.

CATARRH

is a LOCAL DISEASE and is the result of colds and sudden climatic changes.

For your Protection we positively state that this remedy does not contain mercury or any other injurious drug.

Ely's Cream Balm is acknowledged to be the most thorough cure for Nasal Catarrh, Cold in Head and Hay Fever of all remedies. It opens and cleanses the nasal passages, allays pain and inflammation, heals and protects the membrane, restores the senses of taste and smell. 50c. at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren Street, New York.

Soft Finish Goods

Are the most popular this season for dressy men. We have an elegant assortment of patterns. Each is an exclusive pattern—no two alike.

We Want to Call Your

Attention

To the fact that we use only the very best of trimmings in all our work.

Our prices are:

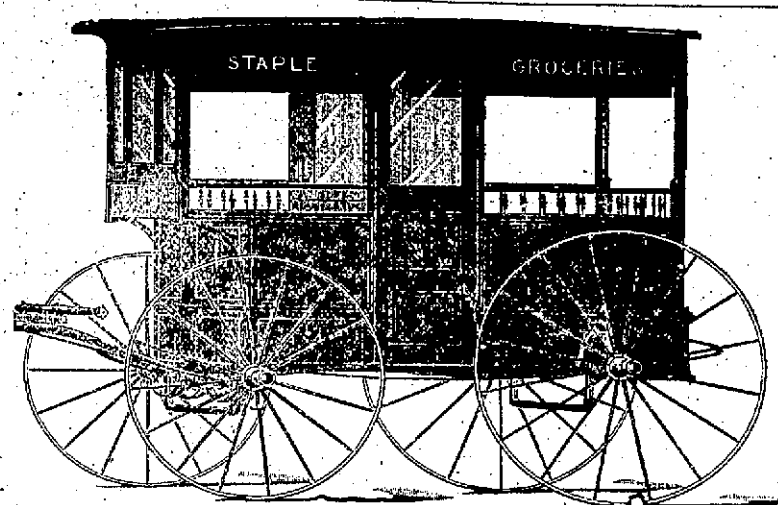

Overcoats from \$20 up.

Suits from \$20 up.

Pants from \$5 up.

Every garment is strictly Union made and satisfaction positively guaranteed.

JNO. M. KNEFF, THE TAILOR, Carpenter Block, over Archie Reid & Co.'s.

Low Down, Short Turn DELIVERY WAGON.

Wagons of this class that we sell are ahead of anything ever used in the city. They are up-to-date in every respect—in usefulness, beauty and durability. One great point with these wagons is the square drop axle, letting the bottom of the box down to within twenty-one inches of the ground.

The short turn is another special feature, allowing one to turn around in an eleven foot alley.

The box is put up in many different styles for convenience as delivery wagons for milk, bakery goods, groceries, laundry, meat or any other business.

NOTICE the new delivery wagon of RICHTER BROS. We sold it to them and it speaks for itself.

MUCH depends on the Harness sometimes. The breaking of a trace or buckle at a critical moment may cause disaster.

Our Harness Is Dependable

The leather is good, the trimmings good, and the workmanship good.

Prices are good, too—for the buyer.

C. H. BELDING.

By Special Arrangement

With the Western Circulating Bureau The Gazette Printing Company is enabled to give its subscribers

1868—Sir John Fowler, a noted English civil engineer, died in London.

GOSSIP OF THE NEWS-PAPERS.

The Madison Journal's Saturday issue now consists of eight pages, and Editor Wilder makes it his business to see that every page is filled with good reading.

William E. Curtis' conspicuous work as Washington correspondent for The Chicago Record is in no small degree responsible for that paper's popularity.

"Jud" Stone, for many years city editor of the Madison Democrat, is now conducting an interesting department, "Jud Stone's Gleanings," for The Madison Journal.

P. Finley Dunne's "Mr. Dooley stories" are once more a feature of the Saturday issue of The Chicago Journal. Dooley's quaint philosophy has made Dunne famous.

I. N. Stewart, formerly superintendent of the Janesville city schools, has been doing editorial work on the Milwaukee Journal for some time past, and doing it well, too.

Lansing Warren, managing editor of the Chicago Inter-Ocean, likes to drive his own horses in a hot trotting race, and has circled the Janesville track on more than one occasion.

The craze for illustration in the metropolitan press seems to be dying out. The result is fewer pictures but a higher standard of excellence—a change that no newspaper reader will regret.

George Kerr is the Milwaukee Journal's "Man With the Hoe" and his writings are read with interest. Arthur Weld does the Journal's "Chappy" column and his work also meets with popular favor.

The Elkhorn Independent has changed form, and is now issued as a six column eight page paper. It has also been improved in its news departments, and is as good in every respect, as it looks.

The Milwaukee Journal has just passed its eighteenth birthday, and is to be congratulated on the success it has achieved. The Journal is an unusually bright and enterprising paper—facts that appear to be generally appreciated.

William Hooker, for many years city editor of The Milwaukee Sentinel, is now the Milwaukee correspondent for The Chicago Inter Ocean, and is giving that paper excellent service in the way of political as well as general news.

Ellis B. Usher of The La Crosse Chronicle, is making the editorial page of that excellent paper very interesting these days. Editor Usher is no longer compelled to hide his light under a bushel, but can let it shine in all its effulgence.

Barring the Milwaukee papers, The Oshkosh Northwestern probably has the most modern plant in the state. The Northwestern handles the Associated Press reports in full; uses linotype machines; runs a perfecting press and has a crew that knows how to utilize such luxuries.

Ward L. Swift, formerly of The Gazette force, is making The Rhinelander New North, one of the most complete and interesting weekly papers in the state. Mr. Swift comes by his newspaper talents honestly, being a son of Capt. P. H. Swift of The Rice Lake Leader.

Howard W. Tilton, who began his newspaper career as a member of The Gazette staff, is now doing splendid work as managing editor of the Council Bluffs Nonpareil. His editorial work is especially brilliant and his writings are often quoted by the other metropolitan newspapers.

The Beloit Free Press has materially improved of late, both in style and in the matter of its news service. A new

dress of type, new headings, and a new method of arrangement make the changes all the more apparent. The Free Press is a "household necessity" in Beloit, and its high standing is as well deserved as it is universally recognized.

A few years ago The Milwaukee Daily News was struggling for existence—fighting present poverty in the hope of future success. Today finds this hope realized, and The News is now occupying its own handsome building, and is growing every day. Its political faith is not what it should be, but aside from that failing The News is all right. W. A. Bowditch now has charge of the news pages of The News, and his original ideas as to the arrangement of his "good stories" are features of every issue.

The new Peck's Sun of Milwaukee, is growing with every issue, and disseminates more good nature for two dollars a year than any other known agency. Ex-Governor Peck is now working in a new field, and as "Uncle Ike" gives the boys, each week, the kind of advice that a good father would give them. George W. Peck Jr., who is associated with his father in the publication of The Sun is a chip of the old block, and writes in a breezy vein. The new Sun is more than worth the price, and its circulation will doubtless surpass that of "the old original."

Herman Bleyer, managing editor of The Milwaukee Evening Wisconsin is one of those sturdy up-holders of republicanism who believe in hewing to the line, regardless of the litter. Mr. Bleyer is a man of exceptional stability and judgment. He never strays into the new and untried paths that lead to the quagmire. His motto is "be sure you're right, then go ahead" and as the result The Wisconsin can be depended upon, at all times, to treat every question fairly and honestly. It never becomes hysterical, nor loses its head. It never has axes to grind, nor personal scores to settle, but always deals, on both news and editorial pages, in truth and good sense.

Many persons have wondered why of late years the afternoon papers have outgrown the morning journals in every city. The following from the San Francisco Bulletin presents the reason in very clear form. It says:

The day is ended. Fortunes have been won and lost. Statesmen, soldiers, writers, adventurers have done the deeds of the day; and night has fallen. The news has been gathered by a marvelous system from all continents and the far corners of the earth. It has been sifted, arranged, illustrated, commented upon, printed and published, and is served hot from the press, still palpitating, as it were, with the action of the event recorded; interesting and startling with the freshness and excitement of the present. Readers over their soup learn what has happened in the wide world while they have been busy, each in his little round of duties, toiling in his shop, arguing his case in court, earning his daily bread. They sit at ease and read at leisure. The evening is ahead of them, and a needed rest after the fatigues of the daylight hours will cap it all.

Fourteen hours later, while he bolts his breakfast with one eye on the clock and a brain already busy with the cares of the day, the morning paper is handed to the citizen. If he has time to read the headlines he is doing well. In the night he has leisure to think of the affairs of the human race; in the morning he must think only of his private affairs.

According to a press dispatch the deposit of vapor and hoar frost on window panes is prevented by coating the window with a composition recently patented by a Belgian, consisting of water, glycerine, sugar and camarin, the resulting compound being transparent and rendering the window clear at all times. Merchants have been much annoyed every winter by frosted show windows, and if the new compound will do what is claimed for it, it will be in great demand.

The Rock county insane asylum took in \$5,000 more than was expended during the past year, yet no expense or labor was spared to provide for every inmate of the institution. Superintendent Allen and the trustees, as well as the taxpayers are to be congratulated for this excellent showing.

The Shamrock is safe at her Olyde dock, defeated, but covered with laurels.

Birmingham's Weekly Output.

A week's work in Birmingham comprises among its various results the manufacture of 14,000,000 pens, 6,000 bedsteads, 7,000 guns, 300,000,000 nails, 100,000,000 buttons, 1,000 saddles, 5,000,000 copper and bronze coins, 20,000 pairs of spectacles, six tons of papier-mache wares, over £30,000 worth of jewelry, 4,000 miles of iron and steel wire, 10 tons of pins, 5 tons of hairpins, hooks and eyes, 180,000 gross of wood screws, 500 tons of nuts and screw-bolts and spikes, 50 tons of wrought-iron hinges, 350 miles of wax for vestas, 40 tons of refined metal, 40 tons of German silver, 1,000 dozen fenders, 3,500 bellows, 300 tons of brass and copper wares.

If the Baby Is Cutting Its Teeth. Be sure and use the old and well tried remedy Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

DRESS AND FASHION.

THE SKIRT QUESTION AS EXPLOITED BY THE GREAT FRENCH MODISTES.

The Box Plaited Skirt the Latest Style—An Attempt at Very Full Skirts—Zinc Gray the Newest Fad in Tailor Gowns.

It must be recollected that many of the models now put forth are only tentative. Time alone can crystallize the modes, a thing indeed which may not arrive, for each of the great French couturieres is turning out skirts of individual cut, mostly dissimilar to one another, but all fashionable.

One great man favors draperies. Therefore redingotes are slightly draped round the waist and figure and caught

TAILOR MADE AND PRINCESS STYLES.

up on the left hip. He also advocates the tunic draped over a velvet underskirt which is much stitched.

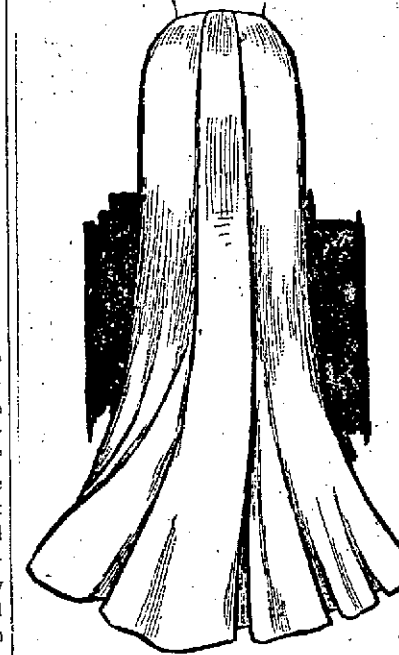

Another has a modification of the rayed skirt, a series of fine hand run tracks, starting from a couple of inches below the waist, slightly widening lower down and ceasing below the knees, whence the skirt flows full and graceful. A third is making very full jupes, over five yards round the hem, while others advocate the plaited back. But it should not be imagined that the plain tight skirts will be abolished. Many will continue to have them so, though they will be ill advised if they allow them to be cut elskin fashion.

The three coachman's capes seem to be the prevailing decoration for the shoulders of redingotes, capes and mantles, though where revers are worn they are very large and accompanied by a handsome Velasquez collar, standing well out from the hair and throat. In far these are noticeably beautiful.

Zinc cloth is the latest shade beloved by the tailors, a dull, light tone of gray, verging on white, which gives it a resemblance to that utilitarian metal.

The first cut shows a gown in that material set off with treble and quadruple rows of black velvet ribbon headed with glittering gold cord. White satin lines the shoulder cape, and the high medici collar is relieved with gold cord. A princess gown trimmed to simulate a coat and tailed tunic is also shown. The elaborate trimming consists of bands of sable and embroidery.

The design in the second cut, le dernier cri of the skirt world, speaks for

THE BOX PLAITS—LATEST FASHION.

itself. The placket hole is arranged at the left side, for the fit over the hips is too close to admit of it occurring at the back. The plait is heavily pressed half way down the skirt and then left to fall in with the flutes at the hem.

Chocolate Layer Cake.

Three-quarters of a cupful of butter, one and a half cupfuls of sugar, two and a quarter cupfuls of sifted flour, three eggs, one-quarter of a teaspoonful of salt, three squares of chocolate, three-quarters of a cupful of milk, one teaspoonful of vanilla, two teaspoonfuls of baking powder.

Scald the milk, dissolve in it the grated chocolate and set aside until cool. Cream the butter and sugar and add the vanilla and the beaten yolks of the eggs. Add alternately the flour and the prepared milk, then the stiffly whipped whites. Lastly stir in the baking powder and beat hard for two minutes. Bake in three layers and when cold put together with the following icing:

Boil together one cupful and a half of granulated sugar, one-half of a cupful of water and a pinch of cream of tartar. When a little dropped into water can be rolled into a soft ball, take from the fire and set aside until partly cooled. Stir until it begins to thicken and add one teaspoonful of vanilla and two squares of chocolate grated and melted over hot water. When quite thick, spread between and over the top of the cake.—Table Talk.

Governed by Pirates. San Francisco Correspondence of the Chicago Record: According to Canton advices received here by steamer, piracy in Kwangtung has reached alarming proportions. At Muhowkeng, a village near Hocking, there is a big nest of pirates whose numbers are swelled by desperate lepers. These men levy blackmail on every junk going to or returning from Canton. The pirates have arranged a regular schedule which must be paid, or the cargo and boat are sold. At Mongchow are 4,000 robbers who are members of the dreaded Triad society. They recently held up two riceboats. One paid \$300 blackmail, but the other refused, when the rice was seized and sold in the open market.

MRS. WILLIAM TUCKER COMMITTS SUICIDE

**CARBOLIC ACID CAUSES HER
SUDDEN DEATH.**

Swallowed a Bottle Full of the Poison
and Then Told Her Mother-in-Law
What She Had Done—Leath Soon
Followed—No Reason Given For
the Rash Act.

Saturday night at 8:25 o'clock Mrs. William H. Tucker died at the home of her mother-in-law, 113 North Academy street, as the result of partaking of a bottle of carboic acid. It was a plain case of suicide.

Mrs. Tucker left no letter or note nor did she give any reason for her rash act. The affair is shrouded in mystery. A prominent member of the family stated today that the only reason that he could give was that Mrs. Tucker had had trouble with certain members of her family who strongly objected at the time of her marriage on account of her extreme youth.

Saturday night at 7:45 o'clock Mrs. Tucker walked into the sitting room holding an empty bottle in her right hand. Her mother-in-law was alone in the room and to her she said: "I have just taken this bottle of carboic acid." Then the badly frightened girl walked across the room and placed the bottle on a table. She soon began to show signs of being in great agony. She was assisted to a sofa in the parlor, where she soon lapsed into an unconscious state.

Friends rushed out of the house to Dr. George Chittenden's home, next door. Failing to find Dr. Chittenden, a messenger was dispatched for Dr. Q. O. Sutherland. One minute after his arrival Mrs. Tucker died.

Mrs. Tucker was eighteen years of age in July last. Her maiden name was Lulu M. Merrill, and she was the youngest daughter of Mr. and Mrs. Roscoe G. Merrill of this city. On Saturday, November 19, 1898, she was quietly married to William H. Tucker. They were making their home with Mr. Tucker's parents, Mr. and Mrs. William A. Tucker, but were planning to go to housekeeping soon.

Mrs. Tucker played the harp in her father's orchestra and was a young lady possessing many friends.

District Attorney Jackson stated today that no inquest will be held, as the circumstances do not warrant one. Funeral services will be held tomorrow morning from the home at 9 o'clock and the interment will be in Evansville. Yesterday Mrs. Gibson and Sutherland held an autopsy over the remains, which revealed that death was caused by carboic acid.

HOPES OF MOODY'S RECOVERY

Dr. Schaeffer's Bulletin Tells of Evangelist's Improvement.

East Northfield, Mass., Nov. 20.—The Rev. Dwight L. Moody, who recently suffered an attack of heart trouble while engaged in evangelical work in Kansas City, reached his home yesterday and is today resting comfortably.

The ride apparently did Mr. Moody much good and he was greatly pleased to reach home. With him were Dr. Schaeffer and C. M. Vining, both of Kansas City. Dr. Schaeffer issued this bulletin:

"The general condition of Mr. Moody has much improved. His temperature is nearly normal and his pulse continues to improve. I look to see him gradually recover. He has no valvular disease of the heart. His circulation is rapidly improving."

PATRIA GOES TO THE BOTTOM

She Lies a Total Wreck in Six Fathoms of Water.

London, Nov. 20.—The Hamburg-American liner Patria, which caught fire on Wednesday, is now sunk two miles off South Foreland, between Walmer and Deal. It lies a total wreck, in six fathoms of water. It apparently has been completely gutted, but the survivors have not been able to get on board to ascertain the prospects of salvage. Captain Frohlich says that had there not been a panic among the passengers they could have saved their personal belongings.

TWO INTERESTING MEETINGS

Held Yesterday Morning and Evening at Y. M. C. A. Building.

The local Y. M. C. A. building was a busy place yesterday. The men's Sunday morning meeting, which has been held at the churches for the past three weeks at 9:30, was held at the Y. M. C. A. building yesterday morning at 9 o'clock. This was a profitable meeting, and all who attended were benefitted.

The subject for the men's meeting at the Y. M. C. A. yesterday afternoon was "The Power That Develops Men." There was good music both vocal and instrumental.

Amazing Longevity.

Instances of amazing longevity are by no means uncommon in Russia, but the case of the brothers Kovalenko, aged respectively 112, 118 and 120 years, is certainly very remarkable even for that country. The three brothers have lived in the same place all their lives, and are still strong and healthy. The eldest, Michael, is of the same age as was Moses at his "passing," and of him, as of that old world worthy, it can be truly said that "his eye is not dimmed nor his natural force abated." The ages are perfectly authentic, for the Russians always have their papers, in which the date of their birth is officially entered, and without which they cannot reside in any part of the empire.

MENU FOR TUESDAY.

To continue love in marriage is a science. It requires so little to kill those sweet sensations, those precious illusions which form the charm of life.—Anon.

A GOOD OYSTER SAUCE.—Open two or three dozen of oysters of less expensive sort, according to the number of people at table. Pick them up in a bowl, and pour over them a good broth with a little coarsely ground white pepper and laurel leaf in it and pass through a tamise, stir a tablespoonful of flour and a few ounces of boiling butter until the last is on the point of rising, then stir the broth with half a nutmeg grated, a glass of white wine and the juice of a lemon, the yolk of an egg or two; finally lay in the oysters and their liquor; add salt if needed. It will not do to let the oysters boil with the other ingredients, as it will simply toughen them.

Useful and fancy articles will be found at special booths. Cakes of all kinds, also candies on sale. Mrs. Nimar, a Syrian, in native dress, will exhibit her beautiful oriental wares. A warm lunch will be served from 12 to 2, 15 cents. Chicken pie supper from 5 to 8, 25 cents. A cordial invitation is extended to all.

SHALL ROCK RIVER BECOME A CANAL

CONVENTION CALLED AT ROCKFORD THURSDAY.

Janesville is Interested For In Time the Work Might be Extended North as Well as South—River is Just as Navigable—Other Points are in Favor of the Scheme.

The movement to convert Rock river into a canal between Rockford and Sterling has progressed so far that a convention has been called for Rockford, Thursday, Nov. 28, at which time steps will be taken to formally present the subject to Congress. Every city along the river in the strip of the proposed improvement will send delegates.

The agitation for the canal began in Rockford last summer. At a meeting of the business men a committee was appointed to confer with the other cities interested. The services of Congressman R. R. Hitt were early enlisted and he has had several conferences with the committee and rendered valuable aid. In every town along the river the project has been received with enthusiasm.

The plan is to make the river navigable from Sterling to Rockford in view of the building of the feeder of the Hennepin canal at Sterling and the opening of that extensive waterway. From surveys which were made by the government in 1866 it is estimated the improvement complete will cost not over \$1,000,000. Prominent engineers have declared the project entirely feasible.

The building of the canal means greater benefit to manufacturers and shippers along the river in the matter of reduced freight rates.

JESSE HARVEY DIES RESULT OF ACCIDENT

**DEATH ENDED HIS SUFFERINGS
YESTERDAY.**

Prominent Town of Magnolia Farmer Who Was Terribly Injured in Corn Shredder Last Thursday—Local Physicians Amputated His Arm—Other Deaths.

Jesse Harvey, aged sixty years, died yesterday at noon as the result of being injured Thursday morning in a corn shredder. His death took place on the Gordon farm in the town of Center.

By the death of Mr. Harvey Rock county loses a man that has made the world better by his living. He was doing good on all sides and at all times. He leaves a wife and one child.

Being the owner of a modern corn cutting machine Mr. Harvey has been lending a helping hand of late to several of the farmers in the town of Magnolia and Center who wished his services. Last week he moved his machine from his farm in the town of Magnolia to the Gordon farm in the town of Center, which is run by Mr. Quimby.

Thursday morning Mr. Harvey assumed charge of the machine which did not run smooth enough to suit him. At 9 o'clock the machine acted out of order and while endeavoring to place shocks in it he accidentally caught the fingers of his right hand in the iron teeth which pulled his hand and arm into the death trap.

When workmen came to the rescue and stopped the machine they found that Mr. Harvey was badly injured about the chest and head. His entire right arm was terribly torn from the shoulder to the fingers. Dr. E. F. Woods and Dr. F. B. Farnsworth was then called from Janesville and they amputated the arm at the shoulder.

Mr. Harvey was then removed into the Quimby residence and there he died. His condition at first showed improvement and his many friends thought he would be able to survive.

Yesterday morning his condition took a sudden turn for the worse and at noon death ended his suffering.

Funeral services will be held tomorrow at 10 o'clock from the home in the town of Center, and at 11 o'clock from the Advent church in the town of Magnolia.

Death of Rev. D. B. Jackson

Rev. D. B. Jackson, well known here as the former pastor of the Congregational church at Emerald Grove died very suddenly at his home in Minneapolis Monday morning, Nov. 13. Mr. Jackson had been quite well up to within a few days of his death, which was the result of a stroke of apoplexy. The sympathy of a host of friends here is extended to the family in this hour of sorrow.

Marion R. Loudon

Marion R. Loudon, second daughter of the late Frank W. Loudon, died at her home in Boston on November 17. Miss Loudon was born in Janesville in 1850 and left here twenty years ago. For the past ten years she has made her home in Janesville. Funeral services were held from the North High street home this afternoon conducted by the Rev. W. A. Hall. The interment was in Oak Hill cemetery.

Patrick Noone

Patrick Noone's funeral was held yesterday morning from St. Augustine church Footville, the Rev. Father Smith officiating. The interment was in Mount Olivet cemetery. The pall bearers were Thomas Dooley, John Drew, John Langdon, D. Finnane, William Grady and John Grady.

WE are making a special effort to please our customers with a line of collarettes from \$5.00 to \$8.00 in price. Read our new fur ad on page 7. Bort, Bailey & Co.

REMODEL RICHARDSON BLOCK

Work of Turning Leaf Tobacco Warehouses Into Garment Factory

Work of remodeling the Richardson building corner of Main street and Pease court is now under way. E. W. Lowell is putting in the heating plant and Contractor Wright has the carpenter contract.

This building will be used for Janesville's new ladies' outer garment factory, which will be known as the Isabel Manufacturing company.

The Chicago stockholders interested are now in the city and comprise the following men: H. O. Parker, James C. Page, George Thomas, William Jennings and Al. Borge.

PHYSICIANS MUST REGISTER

State Board of Examiners Up in Arms Make That Rule.

The matter of the tax on physicians' certificates and the requirements of the laws concerning the same is leading to a good deal of inquiry of the medical board and the collector's offices.

In Milwaukee the collector has just ruled that where certificates are issued by the medical board to physicians to be filed with the county clerk no stamp is required, as they are public documents, but if not to be filed then they require a ten cent stamp.

The state board holds, however, that the certificate from the state board must be filed.

MRS. LAKE LECTURED TODAY

Addressed The W. C. T. U. Ladies This Afternoon at Y. M. C. A.

Mrs. Lake, the well known Catholic temperance lecturer, arrived in Janesville today. This afternoon she gave an interesting talk at the Y. M. C. A. building to ladies of the W. C. T. U.

Mrs. Lenora B. Lake, national lecturer of the W. C. T. U. is scheduled to lecture at the Y. M. C. A. building this evening. The band will play and no admission will be charged.

COUNCIL MEETING TONIGHT

City Fathers Have plenty of Business to be Transacted.

Members of the common council will endeavor to get together this evening after making two futile attempts. Considerable business is to be transacted and a quorum is necessary. Fourth avenue will come before the meeting as will also other street matters.

NEWS OF A PERSONAL NATURE

W. G. WHEELER is ill.

MORRIS BARKER spent Sunday at Minneapolis.

Mrs. W. J. Skelly is able to be out after a week's illness.

Mr. and Mrs. W. F. Palmer are visiting at Milwaukee and Racine.

Dr. and Mrs. W. H. Palmer are expected home from Europe within a few days, having set sail a week ago.

It is rumored that Hon. Thomas Jones and family are coming to Janesville to reside. They will be a welcome addition to the social and business circles of the city.

FRANK MÜNGER, of Watertown, South Dakota, is in the city the guest of his uncle, A. C. Mungler, lately returned from the Philippines, where he participated in twenty two engagements.

BRIEF BITS OF LOCAL NEWS

N. B. ROBINSON has sold his saloon business to W. C. Hart.

TWENTY per cent off on new stoves to close them out. W. J. Cannon.

A STRANGER accidentally fell at the corner of Milwaukee and Academy streets this noon and was taken to the lock-up in the patrol wagon. He was drunk. Dr. Joe Whiting, who was called found the man uninjured.

HELEN SERVATIUS.

SMOKING BOARDERS FIRE BED MATTRESS

CAUSE OF TWO ALARMS LAST EVENING.

Trouble Was on the Third Floor of a West Milwaukee Street Block—Damage Confined to the One Room—Fire This Morning at the Taylor and Morse Foundry.

When Andrew Dulley and Thomas Hope retire for the night this evening it is safe to say that neither will be smoking his pipe but will go right to sleep like two good little boys after a hard day's play. If Andrew and Thomas had done this last evening there would have been no fire alarm.

At 11:02 o'clock last evening an alarm of fire was turned in from box 18 at the west side fire station. The fire ladders responded in good order and found smoke and fire in a rear room on the third floor over Mooses Bros. furniture store on West Milwaukee street. On rushing to the third floor they found the room occupied by Dulley and Hope filled with dense smoke.

Both roomers were more than alive fighting the flames which had enveloped their bed mattress. The bed clothes and the carpets were afire. Members of the fire patrol extinguished the blaze with their extinguishers.

Dulley and Hope both tried to explain matters and finally came to the conclusion that the mattress must have caught while one of them was smoking. The fire was not discovered till after both men were in bed.

The damage was confined to the furnishings of the room. Dulley and Hope are boarders at the J. W. Watson's restaurant. After the fire had been rung out fire was again discovered in the same room and a second alarm was then turned in. A few pails of water soon quenched the flames.

Alarm This Morning

Fire did fifteen dollars' damage to the pattern house of the Taylor & Morris foundry on North Main street at 11:40 o'clock this morning. An alarm was turned in from box 21, and the fire, which was in the roof, was quickly extinguished.

Lake Baikal's Mighty Steamboat

The trains of the Trans-Siberian railway are to be ferried across Lake Baikal on a steamboat, which it is said, will possess the most powerful engines employed in any vessel afloat. They are of 40,000 horse-power, and a large share of their immense energy will be required to break a way for the boat through the thick ice which covers the lake in the winter. The engines of the great steamship Kaiser Wilhelm der Grosse are of only 28,000 horse-power.

Churches for the Deaf

One of the most unique religious institutions in the world is the All Souls' Protestant Episcopal church for the deaf, founded in Philadelphia ten years ago, by the Rev. Mr. Lyle. In fact, it is the largest church of its kind in the world, now numbering over 2,000 members, all mutes. The All Souls' is the oldest, and is the only one having a mute rector and lay reader. When founded the little church was the only place of worship for those so sadly afflicted, and its congregation was made up of members from all over Pennsylvania and many from New York city. Recently a similar church was established in New York city, with about 100 members, and there is now one in London. These are the only churches for mutes in the world.

Why Do So Many Use Rogers' Tar Soap?

Because It . . .

Stops hair falling out.

Cures dandruff.

Makes the finest shampoo on earth.

Absolutely pure and is anti-septic.

Contains no animal fat or grease.

Unexcelled for the skin and leaves the hair glossy.

Makes a delightfully refreshing bath.

ADVANCE IS SUCCESSFUL.

Satisfactory Progress of Operations in the Philippines.

INSURGENT FORCE CAPTURED.

Troops Under Capt. Leonhauser Inflict a Heavy Blow on the Rebels—Roads in the Line of Lawton's March Are Becoming Passable.

Manila, Nov. 20.—The American occupation of the country between Manila and Dagupan is proceeding with a rush. Gen. MacArthur is within five miles of Dagupan, which place Gen. Wheaton or Gen. Lawton will probably occupy. The railroad is practically intact beyond Bamban, except for a distance of five miles north, and the rails for that portion have been discovered. Large quantities of rolling stock have, however, been destroyed.

Gen. MacArthur is moving his troops by train, and the roads within Gen. Lawton's territory are becoming passable. Capt. Leonhauser accomplished one of the best coups of the war. Reaching O'Donnell by a night march from Capas on Nov. 18, he surprised the insurgent forces, numbering 200, and captured all of them, with their arms, 10,000 rounds of ammunition and four tons of subsistence. One Filipino was killed, but there were no American casualties.

Gen. Hughes, commanding at Iloilo, reports that Commander Very of the gunboat Castine landed a force of sailors at Zamboanga. It seems that the insurgents there have been fighting among themselves and killed Calixto, the rebel commander. The bluejackets have been re-enforced by a company of infantry from Jolo, and other troops will be sent as soon as possible.

The mud is the only thing that is offering opposition to Gen. Hughes. The Panay rebels are getting restless south of the line, and they will probably get another beating as soon as it is possible to spare the troops necessary to re-enforce him.

Gen. Otis has 30,343 men of all arms, including the sick and those detached for service in the hospital corps. Over 6,000 troops are in the southern islands. Deducting the sick and those on detached service, provosts, hospital attendants, the necessary guards and garrisons, Gen. Otis has less than 20,000 men for fighting.

Natives Seem to Be Friendly.

Moncada, Nov. 20.—Advancing through the enemy's country by train from Panique, a distance of five miles, the Americans reached Moncada, where the natives have displayed a friendly disposition. The train is stalled here by the wreck of two locomotives and fifty-four cars, evidently intentional, on the main track. The freighthouse and station had been burned. No attempt will be made to save the wrecked rolling stock, but the track will be cleared and as soon as two small breaks have been repaired the expedition will continue northward. Thus far the advance has been a complete success.

Luxon Situation Explained.

Washington, Nov. 20.—All the dispatches received here indicate that Aguinaldo is being pushed northward entirely away from the railroad and into the country just east of the Lingayen gulf. The entire line of the railroad is now practically in the hands of the American troops.

MacArthur is marching north repairing and equipping the road as he goes. It is believed there is no large force between him and Dagupan, the head of the line at the gulf.

Cavalry from Lawton's column has swept eastward from Rosales and tapped the railroad at Bayombong, which they did not attempt to hold, as that will be done by MacArthur's main force from the south when it completes repairs at Moncada.

It is believed that Aguinaldo, with the fighting remnant of his army, left the railroad at Bayombong, where the line crosses the river Agno, and headed northeast, with the mountain capital of Bayombong as his objective point. This similarity of name caused confusion at the department for some time.

Lawton's rapid march to Carranglan is believed to have headed off Aguinaldo and prevented his reaching the mountain town whence his retreat

down the great valley of the Cagayan would have been easy.

Finding himself headed off by Lawton, the insurgent leader, according to the understanding here, turned north from the River Agno, slipped between Lawton and the east and Wheaton, near San Fabian, and concentrated his force at Posorrillo. This place is almost due east of San Fabian, where Wheaton is, and half way to San Manuel, where Lawton's advance was at last accounts. If there is any fighting it is likely to be in this vicinity, but it is supposed that Aguinaldo will retreat still further north, toward Trinidad. This is in the province of Benguet, a volcanic, rough country, difficult to cross, and populated mostly by the wild Igorrotes. From there Aguinaldo could cross the range to the east and get into the Cagayan valley, for which he was originally headed.

To Seed Major Logan's Body.

Youngstown, Ohio, Nov. 20.—A message was received Saturday by Mrs. Logan from the war department stating that under the sanitary regulations at Manila the remains of Major Logan could not be disinterred for two weeks, but that at the end of that time they would be shipped by fast steamer to San Francisco.

HE MAY KEEP GOEBEL OUT.

Republicans Say Kentucky's Governor Will Use Militia if Necessary.

Lexington, Ky., Nov. 20.—Gov. W. O. Bradley and the adjutant-general of the state guard, Daniel Collier, conferred here Sunday with Col. R. D. Williams of the Second Kentucky regiment, and the latter returned with them to Frankfort. None would talk. Republican leaders professing to be close to the governor, but having no announcement from him personally, say that if Louisville is thrown out Bradley will refuse to recognize Goebel as his successor and will maintain his position even if forced to use the militia. The governor's movements are closely watched.

Louisville, Ky., Nov. 20.—Ex-Congressman Asber G. Caruth, member of the local board of election commissioners, said last night that the commissioners would in all probability finish the canvass of the vote of Louisville today, and on Tuesday go over the returns from Jefferson county. This was taken to indicate that the board will be ready on Wednesday to take up the various contests.

Sure It Is the Plague.

New York, Nov. 20.—Microscopic tests made definitely establish that it is the genuine bubonic plague which afflicts James Waters and Robert Burns, captain and cook of the J. W. Taylor, the British steamship now held in the lower harbor under quarantine regulations. Capt. Waters and Burns are resting easily at Swinburne island, and their ultimate recovery is practically assured. No other case is reported among the crew under detention at Hoffman island. The officials of the department of health and of the quarantine station are more confident than ever that it will be impossible for the plague to secure a foothold in the western world.

Finds a Great Copper Vein.

Kansas City, Mo., Nov. 20.—Frank D. Randall, a civil engineer of this city, claims to have discovered in the grand canyon of the Colorado river a vein of copper greater than any heretofore known, together with gold, garnet-bearing schist, asbestos, onyx, serpentine and coal in great profusion. Mr. Randall went through the grand canyon in a boat for the express purpose of finding the continuation of the great copper vein that is tapped by Senator W. A. Clark and the famous Verde mine in Arizona. Mr. Randall has quantities of specimens to show in substantiation of his story.

Monuments to Be Dedicated.

Chattanooga, Tenn., Nov. 20.—Gen. Smith D. Atkins, chairman of the Illinois park commission, arrived here Sunday to be present at the dedication Nov. 23 of the Illinois monuments. Gov. Tanner and party will arrive Wednesday afternoon. Gov. Tanner will receive the monuments from Major J. A. Connolly of the Illinois park commission and will present them to the national military park commission. Gen. H. V. Boynton, for the secretary of war, will respond to Gov. Tanner's presentation.

Long Says He May Resign.

New York, Nov. 20.—A Washington special to the Journal says: "Secretary John D. Long admitted Sunday that he might resign the naval portfolio. 'For family reasons,' said Secretary Long, 'I would be glad to be relieved of my official duties. Unless family ties make my resignation imperative I shall, however, remain, at least until after the presidential election next year.'"

ITEMS OF INTEREST.

It costs \$600,000 to build a first-class steamer for coastwise service. The state of Texas is about 75,000 square miles larger in area than Spain. Considerable progress has been made with the rebuilding of Khartum. The Minneapolis mills make 14,000,000 barrels of flour a year, and consume 60,000,000 bushels of wheat. It is predicted that the apple crop in Kansas this year will be the largest in the history of the state. The production of wire rods increased in the United States from 279,769 tons in 1898 to 1,071,833 tons in 1899. In eighteen of the larger cities the increase on building operations in March was 28 per cent. over March, 1898.

APPLES, apples. Dedrick Bros.

Promise of Moody's Recovery.

East Northfield, Mass., Nov. 20.—The Rev. Dwight L. Moody, who recently suffered an attack of heart trouble while engaged in evangelical work in Kansas City, reached his home here Sunday and is resting comfortably. Dr. Schaeffer issued this bulletin: "The general condition of Mr. Moody has much improved. His temperature is nearly normal and his pulse continues to improve. I look to see him gradually recover."

Loubet Unveils a Statue.

Paris, Nov. 20.—President Loubet unveiled in the Place de la Nation Sunday a statue symbolizing the triumph of the republic. The ceremony was witnessed by an immense crowd. There was an imposing procession of municipal functionaries and labor delegations. Everywhere President Loubet was greeted with cheers and the demonstration passed off without serious incident.

Former Banker Found Guilty.

Kansas City, Mo., Nov. 20.—David V. Rieger, former president of the Missouri National bank, which failed Nov. 30, 1896, owing depositors \$1,500,000, was found guilty in the United States District court Saturday of misapplying the bank's funds and sentenced to six years in the penitentiary. The case will go to the United States Court of Appeals. Rieger was released on a \$20,000 bond.

Demand Inspection of Meats.

Berlin, Nov. 20.—The German Butchers' association makes common cause with the agrarians in supporting the Austrian proposals for concerted continental action on meat inspection. The Strassburg butchers demand the inspection of all varieties of American meats.

Fear Trouble in Brazil.

Buenos Ayres, Nov. 20.—A newspaper correspondent in Rio Janeiro, Brazil, sends word that the political situation in Brazil is causing uneasiness. This is essentially the case in Bahia, where, fearing disturbances, banks and shops have been closed for the last two days.

Persian City Swept by Flames.

Teheran, Nov. 20.—A terrible fire broke out Wednesday night in Resht, about fifteen miles southeast of Enzelle, on the Caspian sea, and raged throughout Thursday. It is estimated that property valued at \$100,000 was destroyed.

Japan to Show Her Might.

Moscow, Nov. 20.—Advices from Tokyo indicate that Japan is putting forth every effort to get its military and naval establishment in condition for effective service. The war budget has been increased to \$300,000,000—an unprecedented expenditure. Armaments are being erected at Yokohama, Osaka and Nagasaki.

Mr. Hobart Had a Poor Day.

Paterson, N. J., Nov. 20.—Vice-President Hobart spent a poor day Sunday. For some time after his worst attack three weeks ago he improved steadily, owing to the fact that he ate almost heartily. But this improvement has apparently reached its limit, and the patient's strength is again slowly failing. Dr. Newton admits that improvement has ceased.

Gavel for Col. Henderson.

Des Moines, Iowa, Nov. 20.—Jowa will present Col. D. B. Henderson with a gavel immediately after his election as speaker of the national house. It is being made of rosewood, brought to Iowa by a captain of the Fifty-first Iowa regiment, who took it from Admiral Montejó's flagship, sunk by Dewey in Manila bay.

Civil War in New Guinea.

London, Nov. 20.—A dispatch to the Daily Mail from Sydney, N. S. W., says that a disastrous civil war has broken out in the British possession of New Guinea, eleven villages having been obliterated, with a heavy slaughter of the inhabitants.

Eczema! The Only Cure.

Eczema is more than a skin disease, and no skin remedies can cure it. The doctors are unable to effect a cure, and their mineral mixtures are damaging to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood diseases.

Eczema broke out on my daughter, and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to two celebrated health springs, but received no benefit. Many patent medicines were taken, but without result, until we decided to try S. S. S., and by the time the first bottle was finished, her head began to heal. A dozen bottles cured her completely and left her skin perfectly smooth. She is now sixteen years old, and has a magnificent growth of hair. Not a sign of the dreadful disease has ever returned.

H. T. SHORE, 2704 Lucas Ave., St. Louis, Mo.

Don't expect local applications of soaps and salves to cure Eczema. They reach only the surface, while the disease comes from within. Swift's Specific

S.S.S. For the Blood

is the only cure and will reach the most obstinate case. It is far ahead of all similar remedies, because it cures cases which are beyond their reach. S. S. S. is purely vegetable, and is the only blood remedy guaranteed to contain no potash, mercury or other mineral. Books mailed free by Swift Specific Company, Atlanta, Georgia.

Foster's Feats For the Foot

are convincing and pleasing to most ladies who believe in "that it pays to buy good shoes." The margin of profit is just the same to us as though we sold you cheaper ones only adding more responsibility to the sale for we positively guarantee you can't buy any better shoes than Foster's make. The lasts are fashioned for the street and the styles we show for dress wear are all on the best foot form lasts to fit any foot. The Foster Shoes are \$4.50 a pair.

MANNISH SHOES

to wear with the "rainy day skirts" we show as low as \$2.50 and \$3.00 a pair.

SPENCER,

The Newest.

WINE OF CARDUI

THE LINK THAT BINDS.

JACKSON, TENN., Nov. 23. I was subject to miscarriage for three years, and suffered constantly with backache. I wrote to you for advice, and after using three bottles of Wine of Cardui, according to your directions, I am strong and well, and the mother of a fine girl baby.

Mrs. E. N. JOWERS.

Wine of Cardui

There is no use talking—a baby in the house is the link that binds husband and wife together. Nothing is sadder than fruitless wedlock. The prattling and cooing of the little ones offset a thousand times the occasional worries and trials of life. When a wife is barren, there is a derangement somewhere in the genital organs, caused by one or more of those common disorders known as "female troubles." Wine of Cardui is the remedy. It puts the organs of generation in a strong and healthy condition, fitting the wife for the sacred duty of reproducing her kind. During the period of gestation the entire system of the expectant mother is built up to withstand the ordeal of labor, and when the little one makes its advent it is lusty and strong, well-fitted to grow to maturity in perfect health. The mother, too, passes through the trial with little pain and no dread. Wine of Cardui is truly a wonderful medicine for women.

LADIES' ADVISORY DEPARTMENT. For advice in cases requiring special directions, address, giving symptoms, Ladies' Advisory Dept., THE WINE OF CARDUI MEDICINE CO., Chattanooga, Tenn.

The Price of a Suit

Of clothes is not always the true expression of its worth. It is equally true that a really good suit of clothes cannot be sold for less than a certain sum. If you pay less you get less, and when you get down to a certain point what you get is worth nothing and your money might as well be thrown in the street.

The price range is adapted to every purse, and each price represents just what twice the amount would buy of made to measure clothes. In buying these garments you get sterling value for your money, and the price is held down just as low as good clothes can be made for. If you seek to save a few dollars by cheaper garments, you get worthless ones and all is wasted. We know this so perfectly well that without hesitation we say that we will give you back your money if you are dissatisfied.

Suits, \$10 to \$25. Overcoats, \$10 to \$40.

Carload of Fancy New York Apples

We have just unloaded a car of choice varieties of hard winter Apples, grown in Tompkins County, New York. These Apples are the best keeping stock that have been brought to Janesville this season. Of all the fine varieties of Apples grown in this country, the "King of Tompkins County" is the most popular and commands the highest price. This Apple has won for Tompkins County, N. Y., the reputation of being the most famous Apple growing district in the United States. We have a good supply of this celebrated "King" Apple, which we will sell by the barrel at lower prices than they can be bought for at wholesale in Chicago.

King of Tompkins County,
Northern Spies,
Rhode Island Greenings,
Spitzenbergs, Baldwins,
Tallman Sweets,
Golden Russets.

This market heretofore has been so flooded with early picked, wormy Apples of poor keeping qualities, shipped in from Michigan, that many people have become discouraged from buying Apples by the barrel. We feel confident that an inspection of our stock will convince them that we have the quality of fruit they have been looking for.
